

## CSN® measurement and control technology

For more than 25 years Schniewindt is your professional partner in the area of measurement and control.

Our strengths - your advantage:

- Construction with Eplan P8 and ProPanel
- customized solutions for optimal temperature controlling suitable to our CSN® high-performance and process-heaters and Power-to-Heat plants
- programming from SPS and HMI by TIA Portal. Allen Bradley or other demands are possible as well.
- remote maintenance from SPS plants via HSPA mobile communication or LAN-router
- installation of our complete systems up to delivery and installation from medium-voltage transformer in cooperation with one of our long-time business partner.
- commissioning, maintenance, service and much more ...

**25 years experience is your advantage** by

**THE POWER OF ELECTRIFYING IDEAS.**
