

CSN® AIR HEATER TYPE 820

Application:

for heating of workshops, working places,
immediate heating of building lots.

For floor fastening

consisting of a silent low-pressure radial fan with projected sheet steel housing, accommodating the heater elements with overheating protection per each phase. In the terminal compartment there are bolted terminals for the control equipment, furnished by the user. The motors, stated in the schedule are rated for 230 V, A. C. and the heating elements for 400 VA. C., three-phase with neutral conductor.

Schutzart: IP 20

Type	Power kW	steps kW changeable	approx. housing dimensions in mm			air escape approx. mm	Qty. of heating elements	approx. air capacity free-blowing m³/h	approx. rpm	approx. air exit temperature at 2 m distance and 18°C ambient temperature
			length	width	height					
820/6	4	3 - 6 -	610	280	375	230 x 160	3	1500	1050	27

For a perfect control of our heaters we recommend our

CSN® Standard Control System for Air Heaters 820/6-48 (* **)

consisting of:

- control cabinet
- main switch
- main fuse
- control fuse
- step switch
- indication light

* kW one-step without fuse

** up to 12 kW one- or two-steps without on-load fuse
